Please find below and/or attached an Office communication concerning this application or proceeding.

Commissioner for Patents

Dear Sir:

The Examiner regrets that it takes a long time for the "Supplemental Examiner's Answer" (1/25/2008) to be issued and sent to the Applicant because some of ineffective attempts of the Examiner during the appeal process, such as "Reply Brief" (paper 9/11/2006) and "Reply Brief" (paper 3/15/2007).

However, the most recent "Supplemental Examiner's Answer" (paper 1/25/2008) was substantially the same as "Reply Brief" (3/15/2007) issued earlier in response to the Applicant's "Supplemental Appeal Brief" (5/26/2006). Please notice that the same reference Drasler et al-6/245,101 has been applied for rejection since "Final Office Action" (6/23/2005).

Considering the time and effort, this case is a serious burden to the Examiner because the Examiner only has the same very limited time and resource for this present case as for other regular cases.

The Applicant's request to strike the "Supplemental Examiner's Answer" (1/25/2008) for the reason stated by the Applicant (page 2, paper 3/25/2008) certainly will undermine the evaluation the patentability of the present claimed invention at least over Drasler et al-6/245.101.

The "Reply To The Supplemental Examiner's Answer" (3/25/2008) is acknowledged and the case is forwarded to the "Board of Patent Appeals and Interferences" for further consideration.

Respectfully,

/Vy Q. Bui/ Primary Examiner, Art Unit 3773
